35 Church St.

THANK YOU  
for  
EVERYDAY  
HEROES!

**The Rocky Hill Fire Department is a Volunteer Fire Department.**

**When someone dials 9-1-1 or a fire alarm is received, the Fire Fighters are notified by pager, and they leave their homes and jobs to go to wherever they are needed. They have to get to the fire station as fast as possible to put on their special fire suits, get necessary equipment, and start up the fire trucks.**

**The Fire Fighters of the Rocky Hill Fire Department are on call day and night every day of the year.**

**There is also a group of men and women called the Fire Police who help all the Fire Fighters stay safe while they are working.**

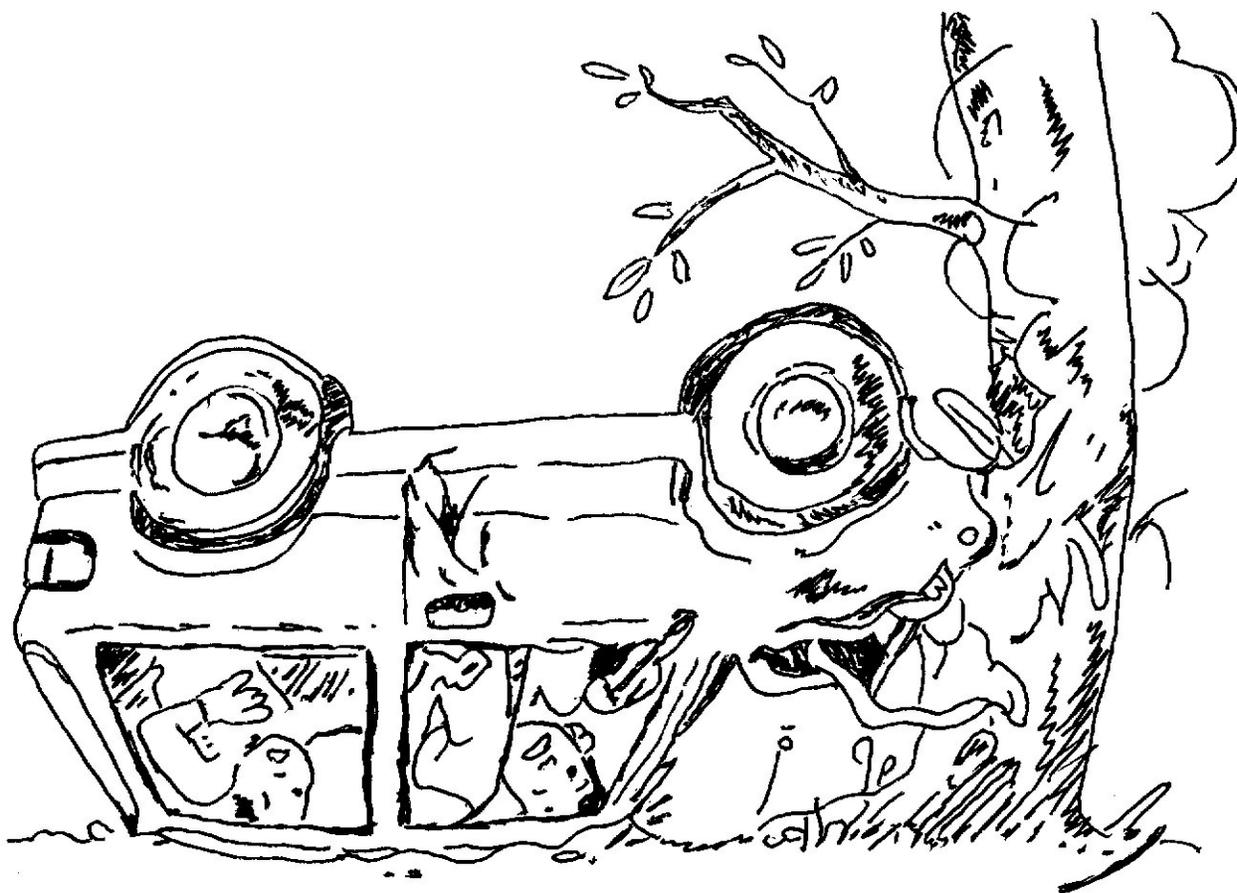

**We are men and women  
who live in Rocky Hill and  
are prepared, at any mo-  
ment, to help save lives  
and protect property.**

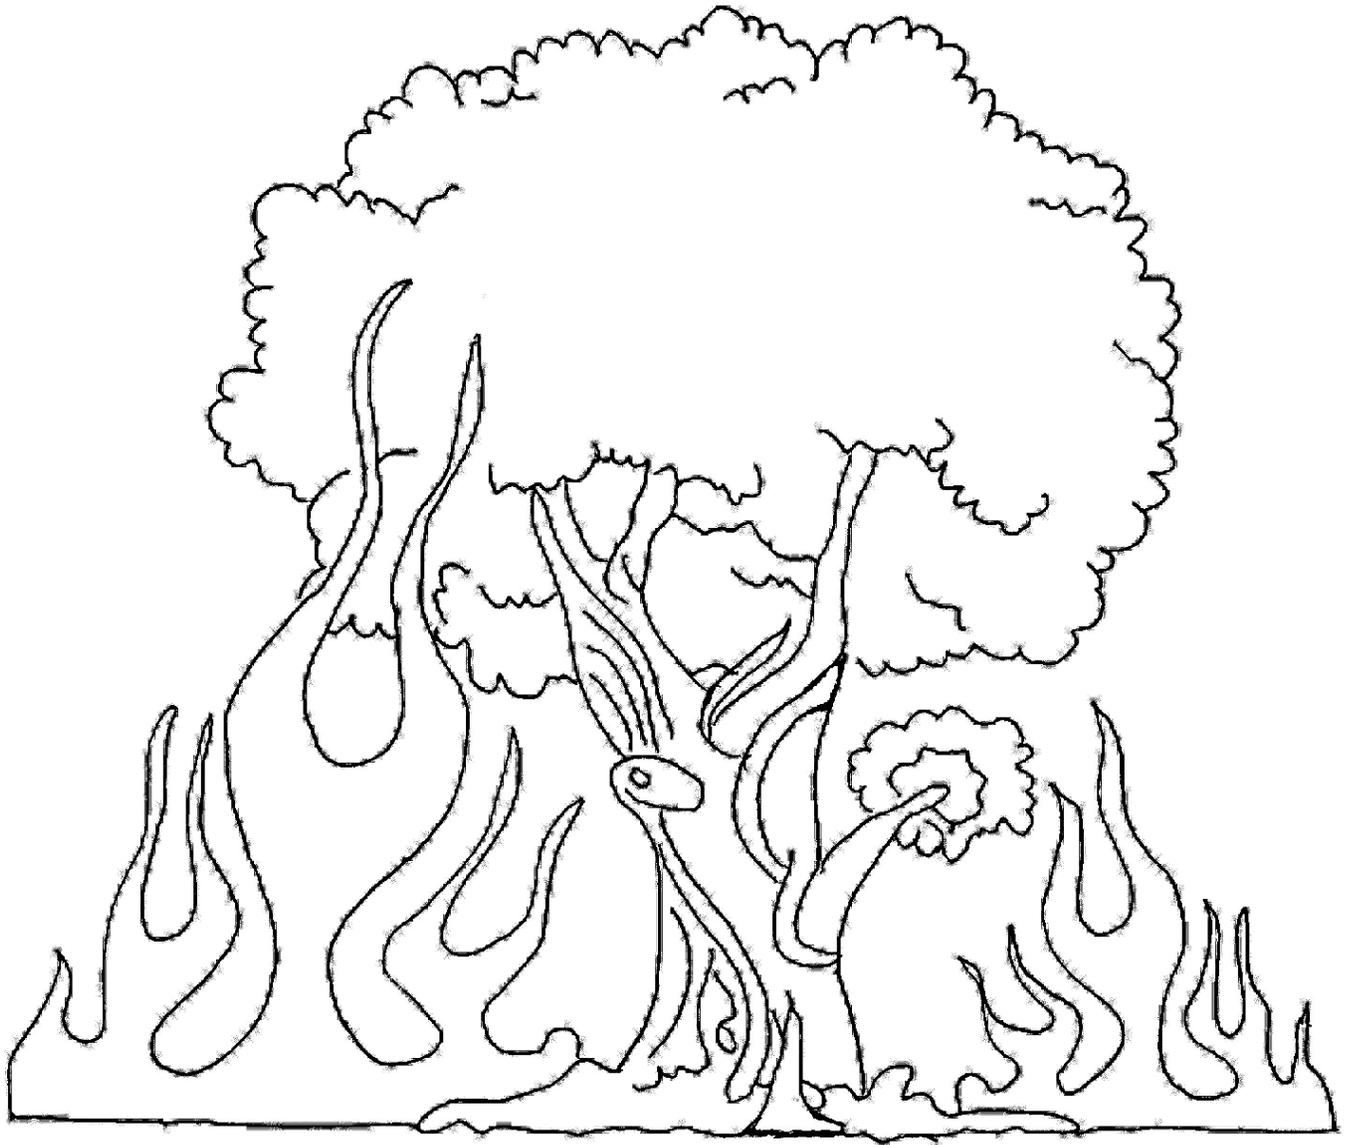

**The Fire Fighters are your  
friends. They keep the  
town of Rocky Hill safe for  
all the girls and boys.  
Maybe some day, you'll be  
a Fire Fighter, too.**

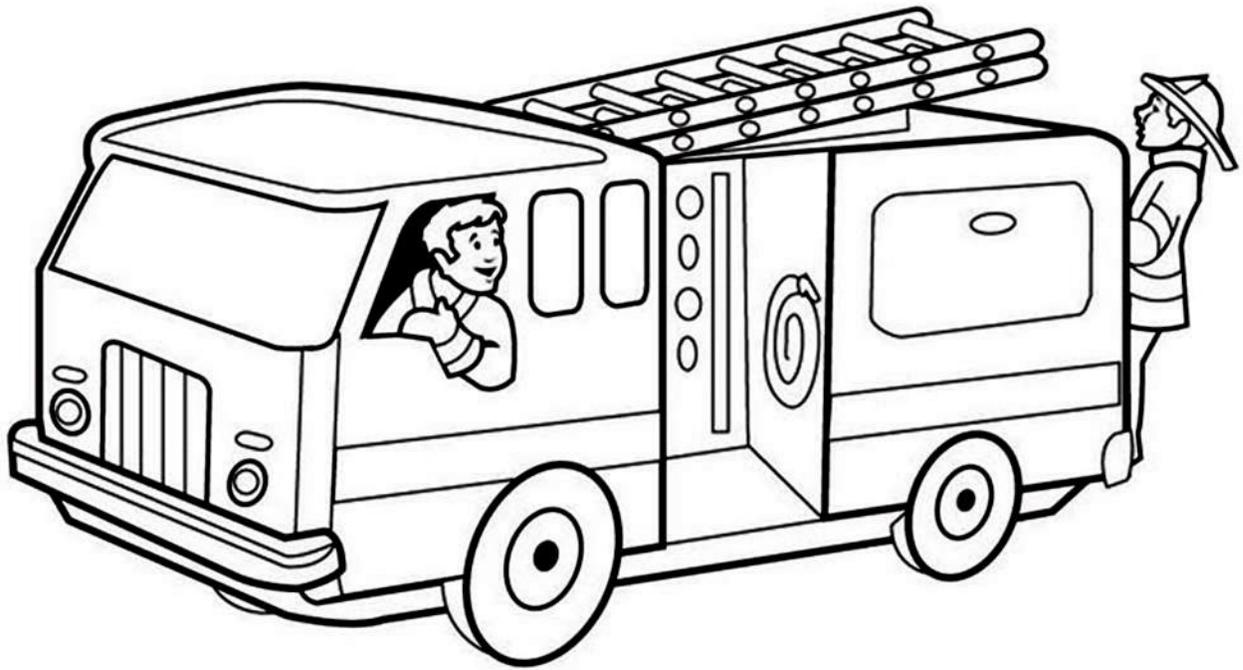

**If a house is on fire, the  
Rocky Hill Fire  
Department is there to put  
the fire out and save  
anyone who might be  
trapped inside.**

**If there is an accident, the  
Rocky Hill Fire  
Department is there to  
save anyone who might be  
trapped in their car, truck,  
or bus.**

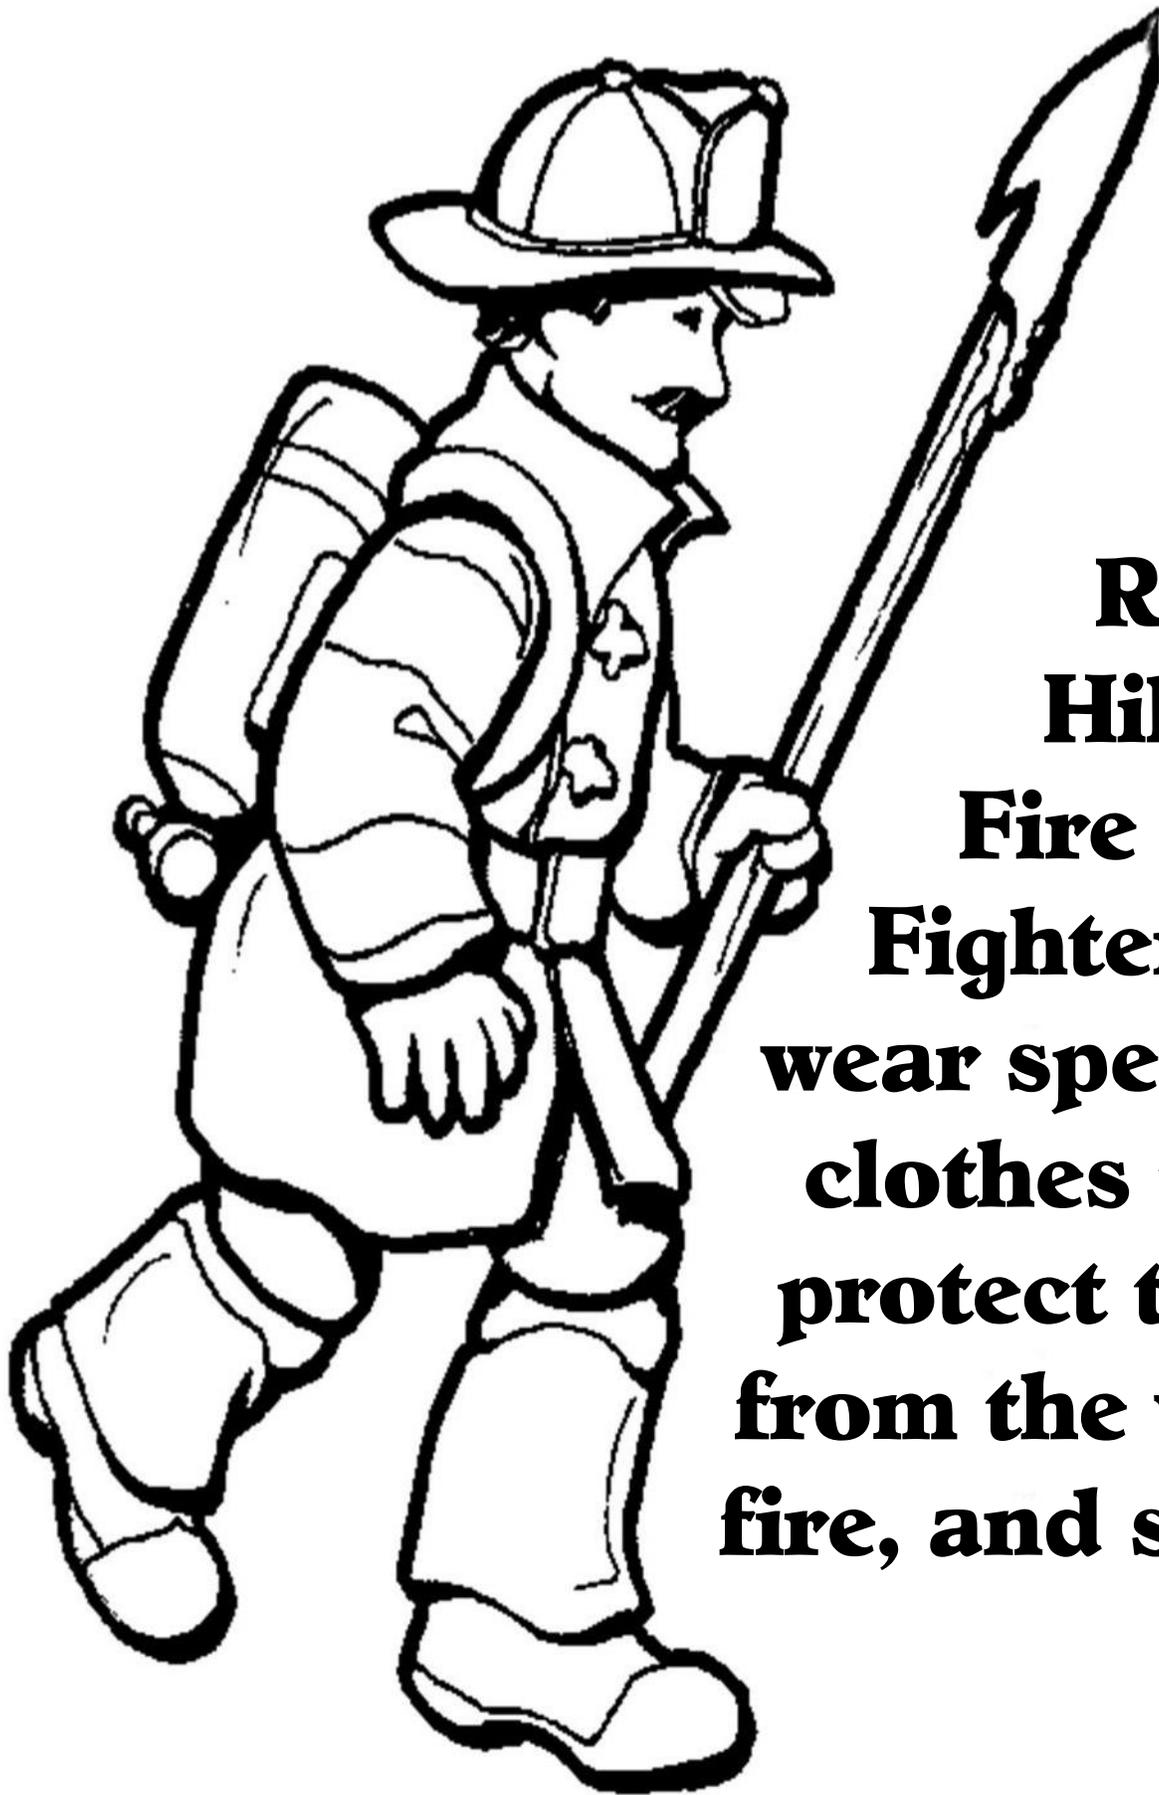

**If there is a fire in the woods, the Rocky Hill Fire Department is there to help save the animals and trees.**

**To get to the fires, the  
Rocky Hill  
Fire  
Fighters  
use fire  
trucks.**

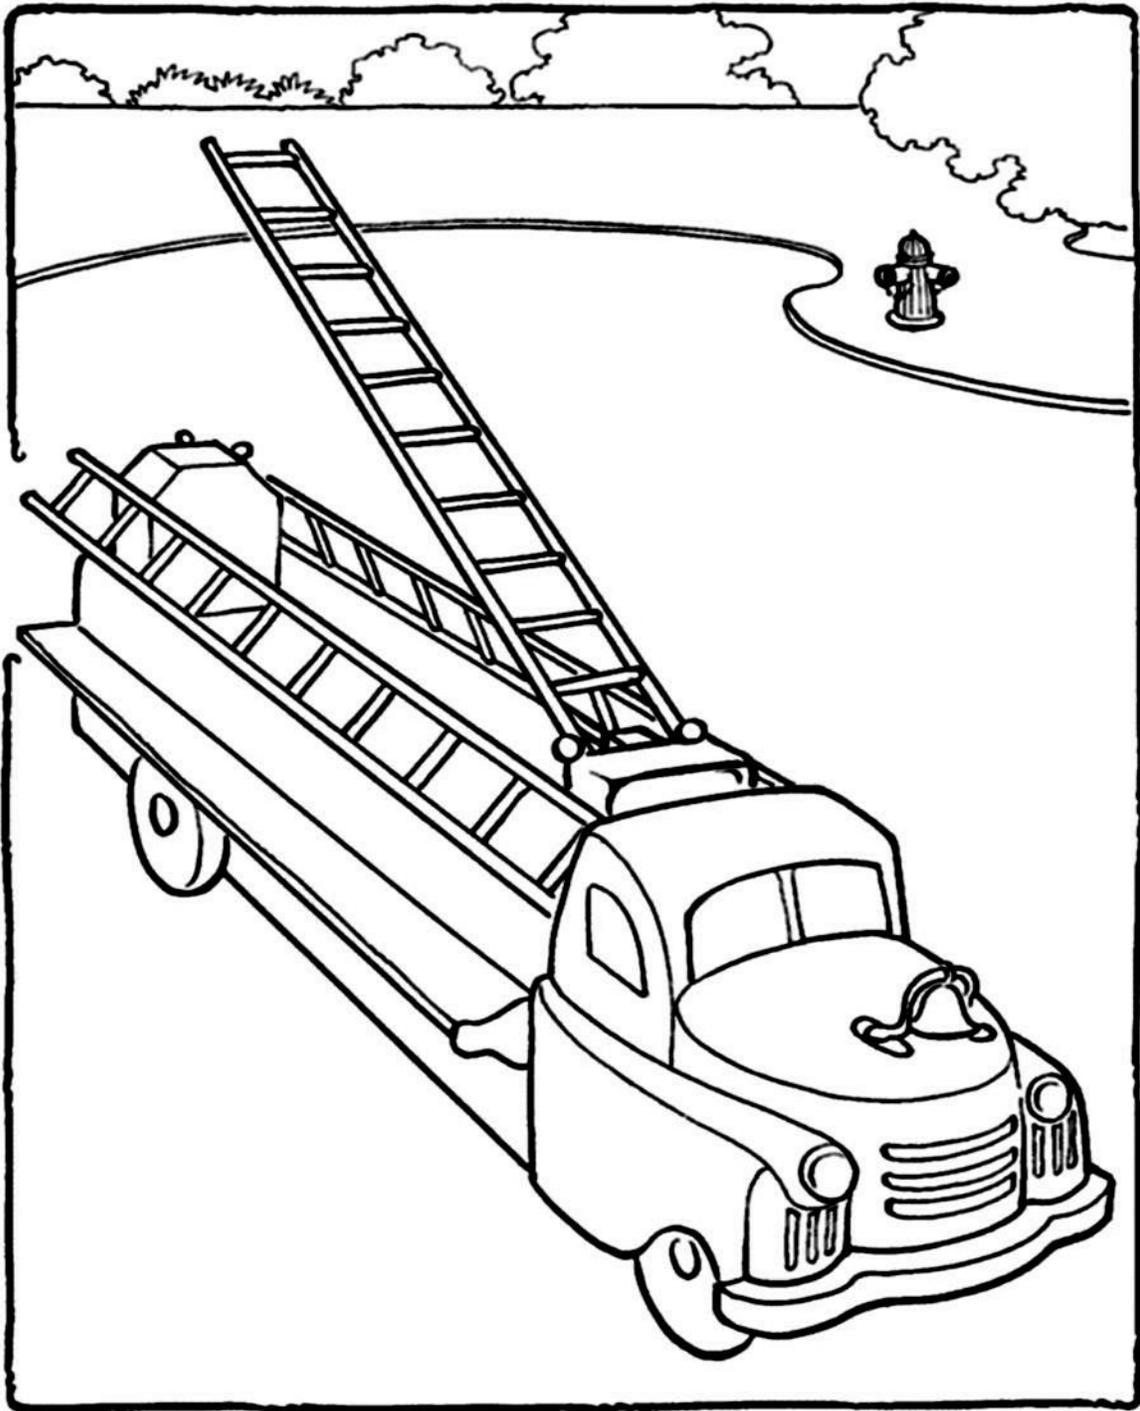

**Rocky  
Hill  
Fire  
Fighters  
wear special  
clothes to  
protect them  
from the water,  
fire, and smoke.**

**Because Rocky Hill is on the Connecticut River, the Fire Fighters are ready to help people whose boats are sinking and to save people who are having trouble swimming.**

**You have to be strong and  
in good health to be a  
Rocky Hill Fire Fighter.  
They have to carry hoses,  
tools, and ladders.**

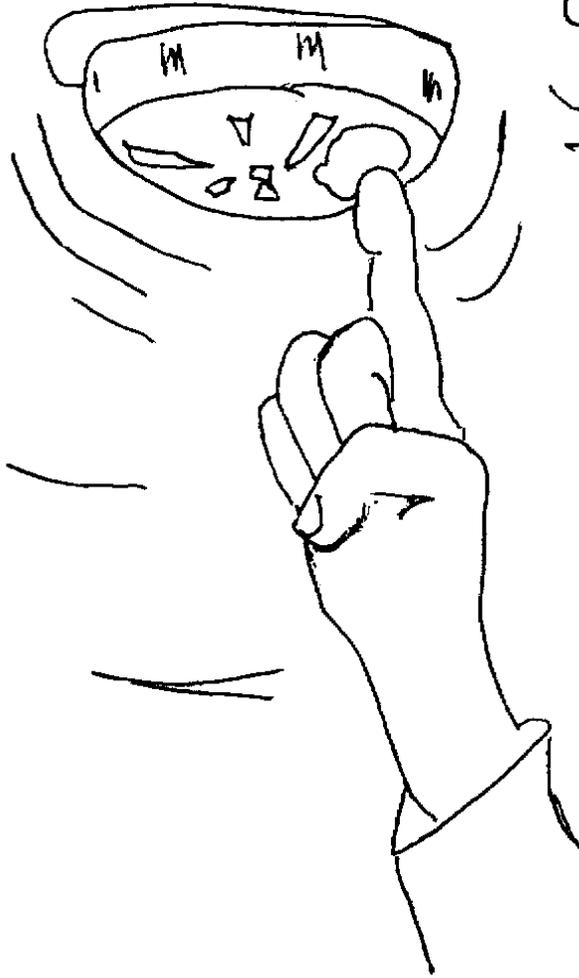

**The Fire Department has special fire trucks to reach the top of all the buildings in Rocky Hill.**

How  
to  
be  
safe

SAVE LIVES

TEST  
MONTHLY

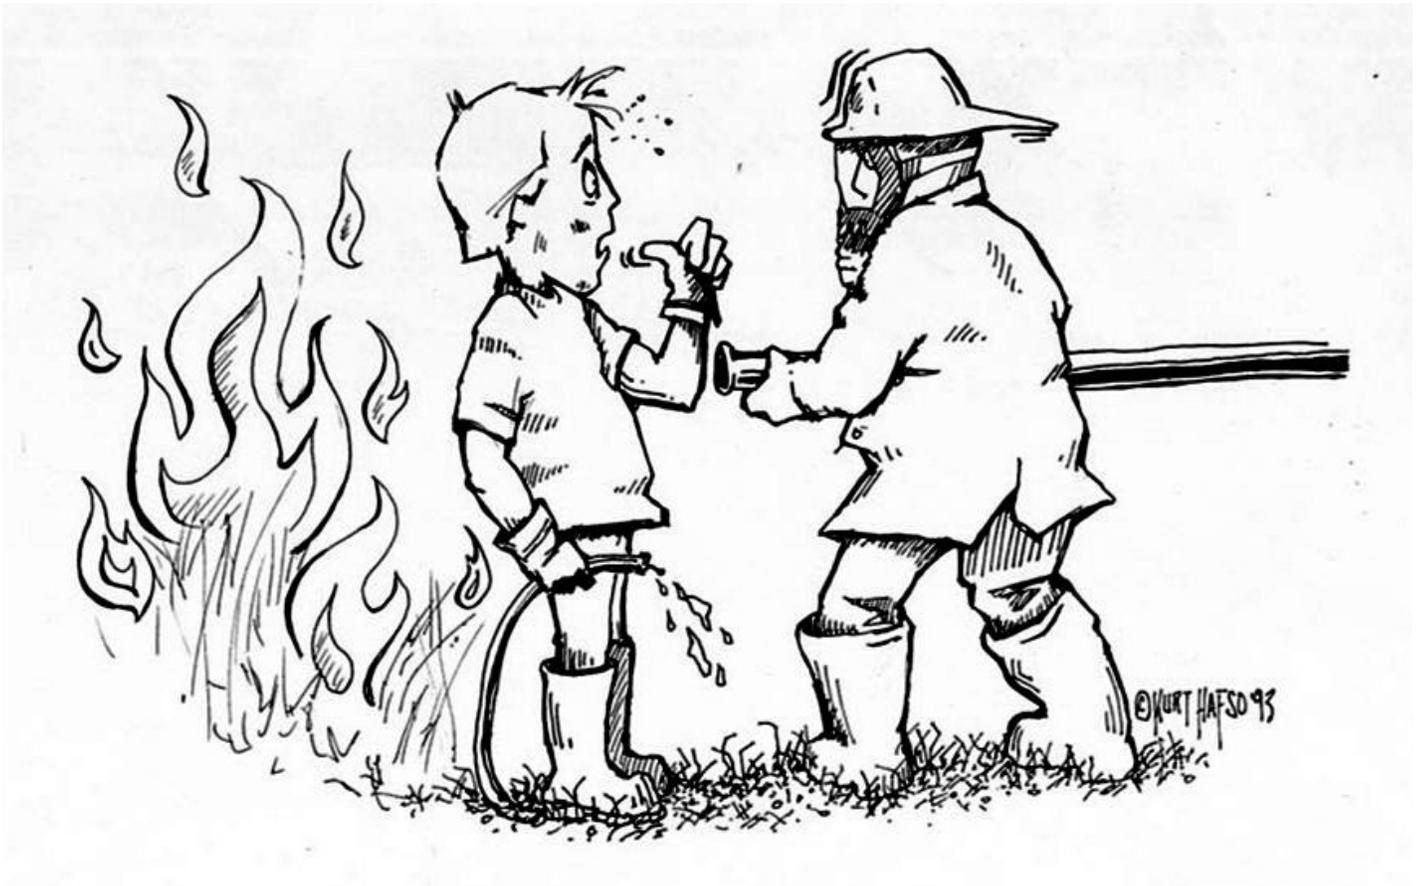

**Ask your Mom and Dad to  
make sure the batteries  
are new.**

**Fire Fighters  
use water  
to put out  
fires. They  
get the  
water from  
fire  
hydrants.**

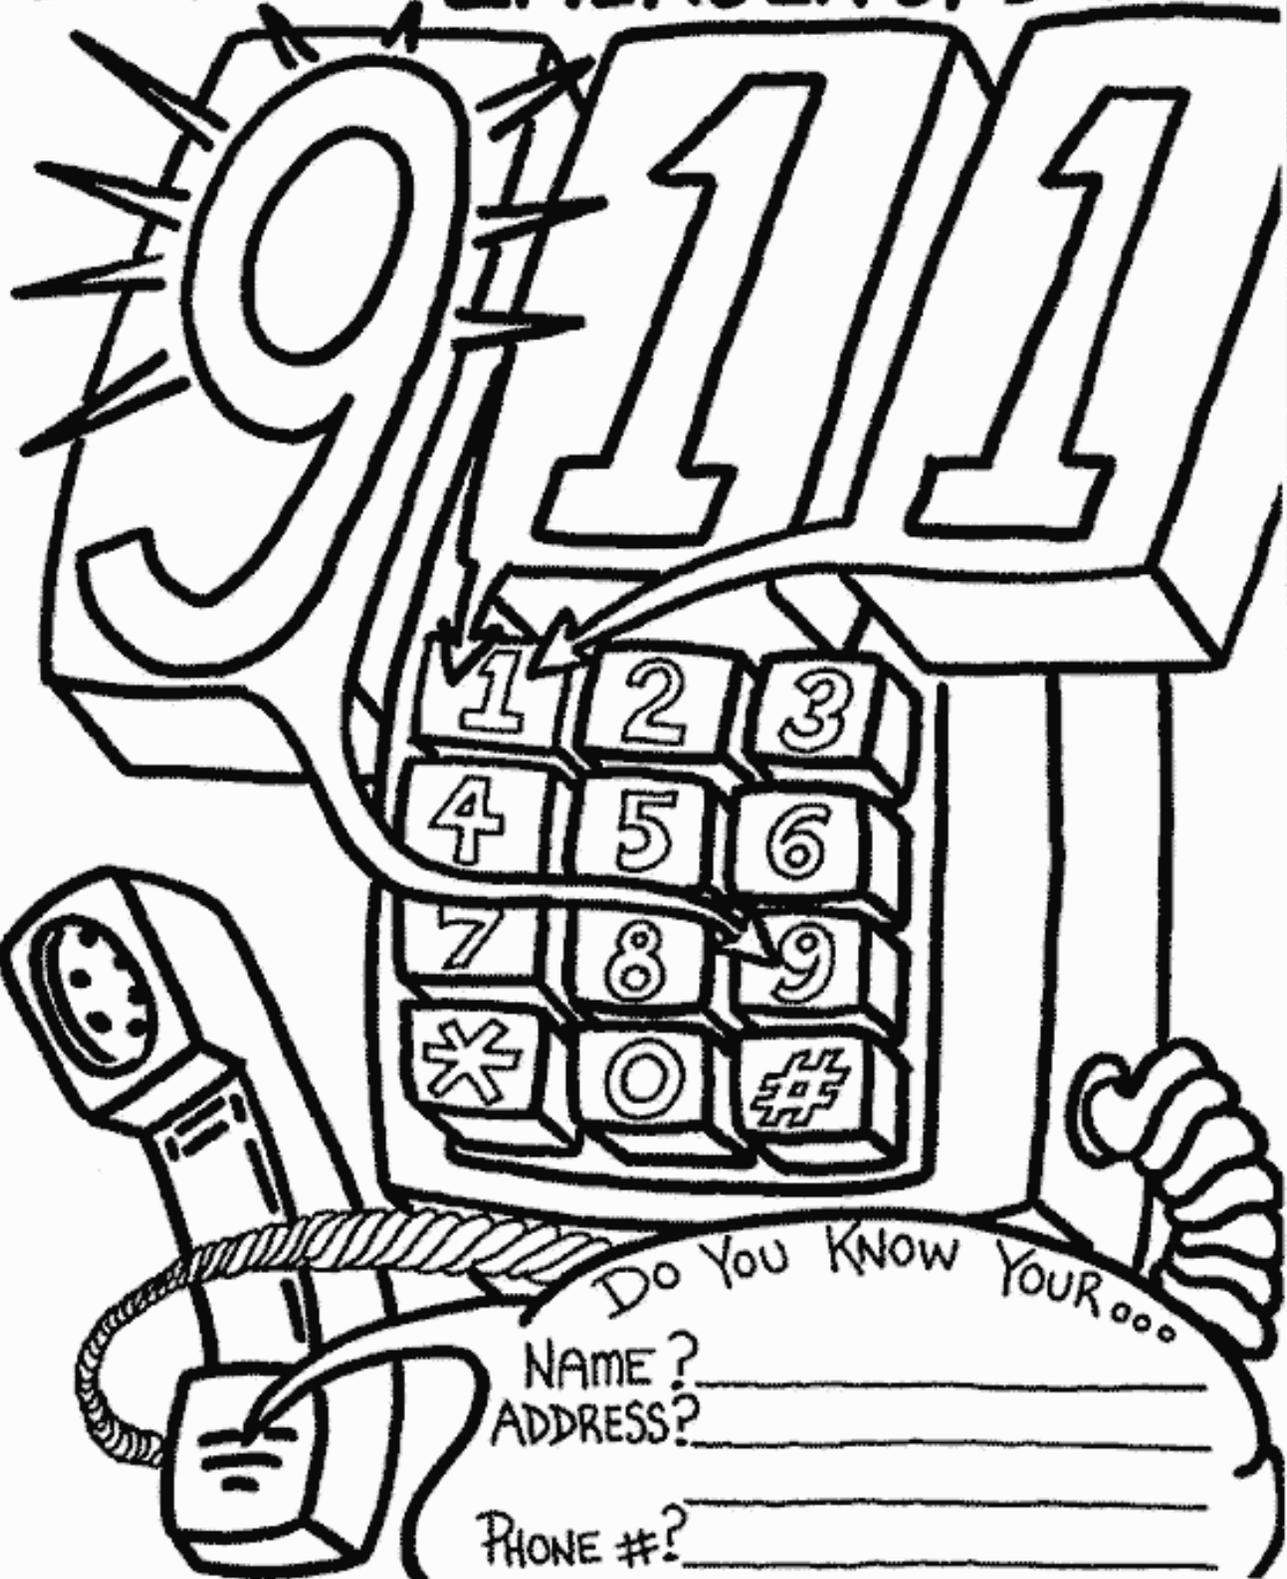

**This is a fire  
hydrant. Is  
there one near  
your house?**

**NEVER, NEVER, NEVER** try  
to put out a fire by  
yourself. It is very  
dangerous and you could  
get hurt. In case of a fire,  
always call 9-1-1.

IN CASE OF **EMERGENCY** DIAL ...
