

## **2016 SUMMER PAVING SCHEDULE**

The Town of Rocky Hill will be performing two types of pavement treatments this summer; Mill & Overlay and Reclaim & Paving. In addition, the town will be replacing damaged catch basin tops, removing bad curb and driveway aprons. The general sequence of operations is to complete preparation work (catch basin tops, curb removal), mill or reclaim, pave, install new bituminous curbing and replace driveway aprons if necessary. Loam and seeding will be completed during the fall planting season. These processes are weather dependent so the dates shown could vary.

### **PHASE 1**

- **Mill** – Costello Industries, Inc. - will begin Monday, June 13
- **Pave** – Tilcon Connecticut, Inc.- will begin Monday June 20 (weather permitting)

#### **Mill and Overlay Roads**

Quail Drive	Raymond Road (Richard to cul-de-sac)
Partridge Drive	Foot Hill Road
Pheasant Drive	High Meadow
Caliber Lane	Charter Road
Starr Drive	Town Line Road
Valley Crest Drive	Palmer Drive

### **PHASE 2**

- **Mill** – Costello Industries, Inc. - will begin late August
- **Pave** – Tilcon Connecticut, Inc. - will begin Early September

#### **Mill and Overlay Roads**

Barry Place	

- **Reclaim** – Tilcon Connecticut, Inc. - will begin late August
- **Pave** – Tilcon Connecticut, Inc.- will begin Early September

#### **Reclaim and Pave Roads**

Summit Road	Fern Street
Webber Road	Valley View Drive
Moser Drive	

Please be aware of the following:

- ◆ **The Town of Rocky Hill prohibits irrigation, invisible dog fence etc. within the Town street right of way or easement as these areas are reserved for sidewalks, signs and utilities. Although prohibited, the Town is aware that there are existing irrigation systems within the right of way. It is the homeowner's responsibility to mark out the locations prior to the start of construction. Every effort will be made to avoid them but if they are damaged, it is the homeowner's responsibility for the repairs.**
- ◆ Please refrain from parking vehicles on the road during the restoration work and please ask that your contractor(s) do not park in the streets during this process.

- ◆ There will be some inconveniences during construction. We thank you for your patience and cooperation during this process. Caution should be exercised during this time to drive slowly and carefully and please observe all traffic signs and flaggers.
- ◆ One lane shall be open to traffic at all times to allow for vehicular traffic (school buses, trash collection, emergency vehicles and residents) to pass.
- ◆ During the period between milling and paving, there will be utility structures (catch basins, manholes, water and gas valves) raised above the milled surface. They will be marked but care should be taken when driving on these roads.
- ◆ Should you have any questions or concerns you may contact Stephen Sopelak, PE, Town Engineer at (860) 258-7672 (office), (860) 982-9700 cell or the engineering office at (860) 258-2766.

THANK YOU FOR YOUR PATIENCE AND COOPERATION
