### 8th Grade - Wednesdays @ 6:30

- **Seedfolks**  
by Paul Fleishman  
August 12th, 19th and 26th

## MINECRAFT CLUB @ The Library

The Cora J. Belden Library is excited to kick off its new Minecraft Club this summer for Grades 6-12! The library has setup brand new Minecraft servers that you can use to play together with your friends. In order to use the server, *you must own the PC version of Minecraft, have a valid library card number, and join the server by visiting the library in person.* Users can log into the server from anywhere they have an internet connection. The library will also be having meeting times once a week so that you can play with your friends together! **You must bring your own device to play during the Minecraft Club Meeting Dates.**

### Minecraft Club Meeting Dates

#### July

Tuesdays July 14th, 21st, and 28th from 4:00 - 5:00 pm

#### August

Tuesdays August 11th, 18th and 25th from 4:00 - 5:00 pm

## Maker Camp @ the Library

The Cora J. Belden Library is excited to once again be a Maker Camp for the summer of 2015! Maker Camp is all about creativity, originality, designing, building, and making awesome stuff with every day materials. Sign up is required, and will open up for each individual program two weeks in advance. All events are on

**Wednesdays at 3:00 pm.**

### June 24th: Pizza Box Circuits

Learn how to build a simple electric circuit from scratch using a pizza box, some LEDs, a buzzer, and conductive materials.

### July 1st: Wearable Electronics

Step up your fashion with some conductive thread, LEDs, and batteries that will turn your outfit into a light show!

### July 8th: Polymer Clay Sculptures

Discover the amazing things you can create with polymer clay, a versatile material that remains soft and pliable until you bake it.

### July 15th: Turn a Toothbrush Into a Robot

Learn how to create your very own robot, made out of a tooth brush! When finished, this "minimalistic" robot will twitch, spin, and move around like a crazy insect.

### July 22nd: Electric Shock Game

Learn how to make an electric shock game by bending a curvy, conductive wire into any shape you desire, which when touched by a hook will sound a buzzer to let you know you need to try again!

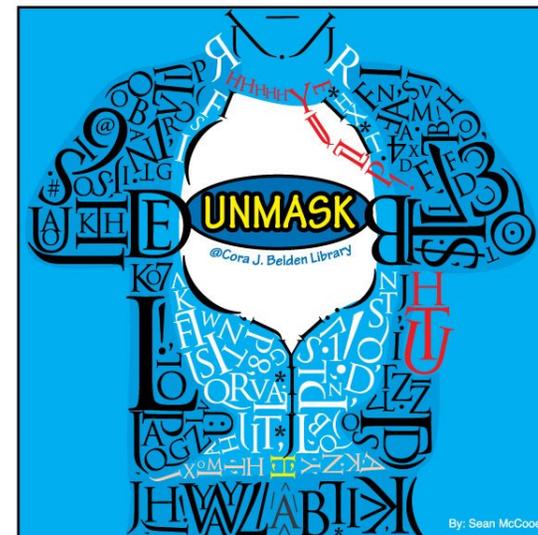

### July 29th: Do It Yourself Blimp

This low-tech DIY project will teach you the fundamentals of blimp technology using balloons, plastic straws, and a business card!

### August 5th: Duct Tape Bowling

This low-tech DIY project will show you how you can use just about anything, such as duct tape, to make practical and useful items, such as a bowling set!
