How to Register

Preschoolers can join a summer reading program at the library!

An activity log with fun activities is available at the library. The skills learned while completing the activities help build the foundation for success in learning to read and a lifelong love of reading. Early literacy skills can be shared through talking, singing, reading, writing and playing. Babies are born ready to learn and these activities will help stimulate the connection of synapses in their brains. Toddlers and preschoolers further develop their brains by learning new ideas and skills.

Register today by completing the information on the right panel and turning it into the library to receive the activity log & a free book. →

Complete the activities and return to the library to receive a prize.

All prizes must be redeemed by Friday, Sept. 4, 2015 (while supplies last).
