

Message to the Rocky Hill Community

The Rocky Hill Commission on Inclusion and Innovation provides this statement in response to recent events in our community in which unknown persons littered residents' yards with slips of paper reflecting messages designed to pit us against each other.

The Commission condemns the actions of those who spew the rhetoric of hate. We share all of our residents' concerns about this incident, and understand that actions such as these affect members of our community in many ways.

Sadly, the darkness of hate reared its ugly head in Rocky Hill last week, and we call on all of our residents to respond with kindness and unity. Take the time to reach out to your neighbors and let them know you care about them. Speak words of support and compassion for all members of our community.

The role of the Commission is to listen to members of our community and turn what we hear into action items. To that end, we hope Town residents and members of the Rocky Hill business community will offer public comments at our upcoming Commission meetings on April 26 and June 28 in the Town Council Chambers in Town Hall. If you are unable to attend the meetings you can email your thoughts and concerns to commissioninclusioninnovation@rockyhillct.gov. A meeting agenda will be publicly posted. We look forward to hearing from you.
